CAREER OBJECTIVE

OVERVIEW

- Passionate full stack developer with 3 years of expertise in creating innovative web applications.
- Enhancing user experience through design & backend integration.
- Looking to use my skills for impactful, collaborative projects.

PROJECTS

TattooDesignPro

LIVE

- Led the project from idea to deployment.
- Integrated AI model to create personalized tattoo designs.
- Built a REST API for front-end and back-end communication.
- Improved user experience with faster load times & an intuitive UI.

EireneCremations

LIVE

- Optimized database queries for efficient performance.
- Automated document generation to enhance end-of-life planning.
- Created & integrated REST API endpoints to improve functionality.
- Collaborated with the team to gather criteria & fulfill user needs.

WordRocket

LIVE

- Improved the database interface for better usability.
- Developed SEO templates for marketers and writers.
- Built and integrated REST APIs to boost user functionality.
- Automated content generation with AI for better efficiency.

Experience

Full Stack Developer

Auxo Solutions • Brookline, MA, United States (Remote)

NOV 2024 - NOV 2025

With Auxo Solutions, I build scalable web apps using Next.js, TypeScript, and Node.js. I develop key product features, integrate backend APIs, and optimize UI performance to improve user experience. I work closely with cross functional teams to deliver production ready solutions and boost platform efficiency.

Full Stack Developer

Eirene Cremations • Regina, Saskatchewan, Canada (Remote)

MAR 2023 - APR 2024

At Eirene Cremations, I focused on delivering features such as a deceased status checker and creating forms for listing deceased information. I also built internal tools to manage the entire system, create and integrate backend APIs & collaborated with the team to ensure a seamless user experience.
